

# CUTTING FENCES FOUNDATION 2025 ANNUAL REPORT

“A year of growth for the good of others”

# A Word From The Founder

Hello Everyone,

Wow, 2025 was a heck of a year! We had so many amazing loans on our equipment, added equipment to the inventory, grew our staff, and increased our following with more of the most loyal and supportive people you can find. I want to thank you all so much for standing behind us in this mission and pushing us to be better and to do more! Each year I sit down to compile our Annual Report and I am reminded of just how blessed I am to get to do this work. I am reminded of how blessed I am to meet the people I do each year and most of all I am reminded just how good people are in the world. Thank you all for helping us, help others! Here is to the year ahead, the people who inspire us, and those who graciously support us through it all--making everything possible!

Gratefully,  
Kenny

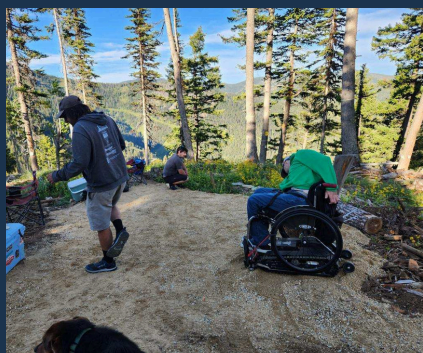

# Adaptive Equipment Updates

It was another wonderful year of possibility with our adaptive equipment loan closet. Our equipment was used to hunt, garden, attend celebrations, tend livestock, adventure with family, cruise around county fairs, celebrate the lives of friends who have passed, participate in trainings, and so much more! The smiles on the faces of those loaning our equipment really do say it all. We are so grateful to our funders for making this all possible. Thank you for helping us, help others. We had a total of nine different loans and five demos on our equipment in 2025. We are grateful to see our loan inventory and the number of people enjoying it grow each year.

To our equipment users--keep on doing your thing! Thank you for inspiring us daily!

# A GROWING INVENTORY!

## Making More TRACKS

Thanks to the Christopher and Dana Reeve Foundation we added two additional Trackstanders and two cargo trailers to our loan inventory. Both were reserved to loan before they were even delivered.

## Hopper #2

We also added another TerrainHopper to the loan inventory thanks to funding from Bass Pro Shops, Cabela's, United Grain, AgWest Farm Credit, Hoppers for Heroes, Browning Kimball Foundation, and donations from the Jeff and Sue Willmore calf donation.

This Hopper was also reserved for loan before we received it, with another in line behind them.

# We Hit The Road!

In 2025, we hosted our first Road Show at the Western Montana Fair. We had a wonderful turnout and are so appreciative of the partnership that the Missoula County Fairgrounds and Horse Connection Zone offered us. The carnival rides may have been great, but the real fun was had on our rides. We had five different people come to see/try our Trackchair and TerrainHopper. We also had the opportunity to present a check to Prairie Fire Equine to put in a ramp to help participants mount and dismount horseback from a wheelchair. The funds for this ramp were from our Quality of Life Fund, specifically from the Barkhuff beef donation. It was an amazing day!

# Resources that Reduce Financial Stress:

Total Money Saved:

**\$206,205.00**

Offering free loans on adaptive equipment decreases the need for our stakeholders to spend out-of-pocket dollars to be able to do what they both want and need to do. **A total of \$206,205 was saved for the nine loans in 2025, with an average of \$29,457.85 per person.**

**“I just wish I could have had something like this years ago.  
They’re the best thing out there for disabled people.”  
-Tracey Manning**

# Veteran-Specific Service

It is extra special to give back to those who have given so much for our freedom! We thank all of our Active Duty Service Members and Veterans for their selfless service!

## Restoring Access:

Through our Adaptive Equipment Loan Closet we had the opportunity to loan to many amazing people in the year of 2025. Our equipment was used and loved in many meaningful ways. Mac, Combat Veteran, reached out to us after reading about our TerrainHopper in the RMEF Bugle Magazine. He was eager to find a way to hunt after spending 20+ years hunting and guiding. His service-connected injuries made it difficult to get out and hunt the way he used to, but he said he is a firm believer that, "It is not what he can't do, but what he can". He was able to have a successful harvest with our RMEF-funded TerrainHopper. Thank you Mac for your service and for keeping going!

**“I don’t know how to thank you.  
I can go hunting again!”**

## **CREATING OWNERSHIP:**

Hans Zagler, a US Army Special Forces Veteran and Purple Heart Recipient, connected with Cutting Fences through our community partner, MonTECH, summer of 2025. We met officially at our Road Show at the Western Montana Fair where Hans met us to loan the Trackchair and fell in love with our TerrainHopper. We knew immediately this was the machine that he NEEDED. We went right to work trying to find funding partners to help Hans purchase his own Hopper. We applied for \$5,000 toward the machine through Hoppers for Heroes and were awarded this. The organization Courage and Sacrifice was brought to our attention from another Veteran in our community and they awarded \$20,000 to Hans for the purchase of his Hopper. We used our Quality of Life Fund to cover the remaining \$2,500 of the machine and before we knew it we were having the best day delivering it to him. Thank you to all of our funding partners for making this amazing story come true!

# THANK YOU FOR HELPING US, HELP OTHERS!
